

Integrated Management System Policy

compliant with ISO 9001 requirements

Introduction

Yabimo Sp. z o.o. designs and delivers steel structures and provides training services. Our goal is to deliver products and services that meet Client requirements, legal regulations, and the principles of reliable and responsible conduct.

Quality of services

We ensure transparent and controlled processes, fulfillment of Client requirements, and continuous improvement of quality. We monitor results and implement appropriate improvements.

Occupational health and safety

We provide safe working conditions through hazard identification, risk assessment, and the application of appropriate preventive measures. We strengthen a culture of responsible behavior.

Environmental protection

We minimize the environmental impact of our activities, prevent pollution, and apply solutions that promote the efficient use of resources.

Risk management

We systematically identify and assess risks and implement actions that reduce their impact. We ensure oversight of the effectiveness of the measures applied.

Employee development

We enhance employee competencies through training and initiatives that support their engagement and participation in system improvement.

Continuous improvement

We regularly analyze the functioning of the Management System and implement improvements based on audits, reviews, and performance measurements. We provide the resources necessary for the effective operation of the system.

Management Declaration

The Management Board of Yabimo is committed to maintaining and continuously improving the Management System and ensuring the conditions necessary for achieving its objectives in line with the company's strategy.

Michał Olesiński

President of the Management Board & CEO
